

Report of Barcelona's webinar 26th of May 2023

On April 26th, 2023, the highly-anticipated webinar for the SKY project took place in Barcelona, marking a significant milestone in the project's progress. The webinar brought together key stakeholders who had participated in the four Territorial Working Groups (TWGs) held in Barcelona. During these meetings, the partners discussed and reached conclusions on the seven professional "gestures" for three different sectors, including the recycling of computers, IT-Emplea+, and winery collection.

The webinar was enriched by the presence of key stakeholders who had participated in Trinijove's previous TWGs, such as Rosa Saiz from the City Hall of Barcelona, Raquel Burgueño from Fundació La Caixa, Alba López and Francisco Alarcón from Som S.LU, and Jordi Porta from Traldisporta. Their participation was essential in providing valuable insights and guidance towards actionable steps for the project.

The webinar covered various aspects of the SKY project, including a brief presentation of the transnational partners by Eric Degimbe, the Director of CEC. Elisabeth Díaz, the Director of Trinijove, also presented the local SKY partners who had attended the TWGs. Additionally, the possibility of implementing micro-training in the policies of the territory was discussed by Rosa Saiz in the name of Iria Garcia Labandeira, the Director of People and Territory at Barcelona City Council, Sants les Corts District.

The partners presented the professional "gestures" for each of the different sectors during the webinar. These included Jordi Porta, the CEO of Traldisporta, Rebeca Serralta from Barcelona Forum District, and Jordi Audet, who provided tailored viticulture training for his company. Fran Gómez, a specialist technician in insertion itineraries at the Trinijove Foundation, also gave a brief presentation on long-term unemployed selection methods for the selected 25 LTU people who will participate in the micro-trainings.

Finally, Elisabeth Díaz and Jean B. provided insightful conclusions at the end of the webinar that will guide the project's next steps. The webinar was a resounding success, and it was a crucial step in the SKY project's journey towards sustainable success. The insights and contributions made by the stakeholders have set a solid foundation for the project's future endeavors.
